

VIDEO SURVEILLANCE CCTV

Overview

Our CCTV solutions provide end-to-end security coverage through high-performance cameras, NVRs/DVRs, and centralized video management software. Ideal for critical infrastructure, commercial, and industrial environments.

Key Features

- High-resolution IP cameras
- Scalable recording solutions (NVR/DVR/Servers)
- Centralized monitoring software
- Remote viewing and control
- Event-based notifications

Applications

- Shopping malls, airports, hospitals, smart buildings, logistics
- Projects that require scalable and integrated surveillance

Benefits

- Enhanced security and situational awareness
- Real-time access and analytics
- Easy integration with other systems (fire, access control)
